You are vested when you have the equivalent of five years of service credit. If you have established reciprocity with another qualified retirement system, your reciprocal service credit is included in determining eligibility for vesting and retirement.

Being vested means that you have earned the right to a future retirement benefit, even if you leave your job before you are eligible for a Service Retirement. Being vested also means you are eligible to apply for a Non-Service Connected Disability Retirement.

Service Retirement eligibility

The eligibility requirements for Service Retirement (non-disability retirement) from Plan A are:

General Members

- Complete 10 years of service **and** reach age 50, **OR**
- Complete 30 years of service regardless of age, **OR**
- Reach age 70 regardless of the amount of service credit.

Safety Members

- Complete 10 years of service **and** reach age 50, **OR**
- Complete 20 years of service regardless of age, **OR**
- Reach age 70 regardless of the amount of service credit.

Retirement from deferred-vested status

Deferred retirement is available to vested Plan A members who leave employment with at least five years of eligible service. As a Plan A deferred-vested member, you are eligible for a Service Retirement on the date you would have been eligible to retire if you had remained employed in a full-time position. Contact SCERA several months prior to your retirement from deferred-vested status to obtain a retirement application packet.

Retirement from deferred non-vested status

A deferred non-vested member is eligible to retire at age 70.
